Production Access Questionnaire

Testers Community

The objective of this report is to provide comprehensive answers that our clients can use to fill the production access form. You can use the answers directly or can make changes based on how you improved the app. After 14 days of testing, users will be prompted to fill a form on closed testing to get access to production. This document can be helpful in answering those questions.

App Name: The Day To

App URL:
https://play.google.com/store/apps/details?id=uk.co.zlurgg.thedayto

Production Access Questionnaire

1) How did you recruit users for your closed test? For example, did you ask friends and family, or use a paid testing provider?

We used a paid testing provider to obtain comprehensive feedback on The Day To app, ensuring a thorough evaluation of its features. Additionally, we reached out to our target audience—individuals interested in emotional wellbeing—to gather real-world insights from users who would benefit from the app.

---

2) How easy was it to recruit testers for your app?

Answer: Easy
(You can select your own answer).

---

3) Describe the engagement you received from testers during your closed test

Testers engaged actively, providing valuable insights on app usability and features. Their feedback led to critical enhancements, including improved

onboarding and visual elements, which significantly boosted user engagement and satisfaction with the app experience.

---

4) Provide a summary of the feedback that you received from testers. Include how you collected the feedback.

Testers highlighted the need for ASO optimization, a dynamic walkthrough for new users, improved screenshots, fixing the 404 error on the privacy policy page, adding a "Rate Your App" button, and implementing theme toggles. Feedback was collected through surveys and direct communication.

---

5) Who is the intended audience for your app?

The Day To is designed for individuals seeking to enhance their emotional wellbeing through daily mood tracking. It caters to users interested in self-reflection, mental health awareness, and those who appreciate a personalized journaling experience focused on emotional patterns.

---

6) Describe how your app provides value to the users.

The Day To empowers users to track their moods, visualize emotional patterns, and capture personal notes, fostering self-awareness and emotional growth. With customizable features, daily reminders, and a focus

on privacy, it offers a unique journaling experience tailored to individual needs.

---

7) How many installs do you expect your app to have in your first year?

Answer: 10k - 100k
(You can select your own answer).

---

8) What changes did you make to your app based on what you learned during your closed test?

We implemented a dynamic onboarding walkthrough, optimized app description for ASO, improved Play Store screenshots to showcase features, fixed the privacy policy link, added a "Rate Your App" button, and introduced a theme toggle for enhanced user experience and accessibility.

---

9) How did you decide that your app is ready for production?

After extensive testing and integrating valuable feedback, we ensured The Day To app is stable, user-friendly, and fully optimized. Key features were refined, and critical issues addressed, confirming its readiness for a successful launch on Google Play.

---

10) What did you do differently this time?

This time, we prioritized user experience by focusing on onboarding, ASO improvements, and feature visibility. Engaging a diverse group of testers allowed us to capture a broader range of feedback, resulting in a more polished app that is ready for production and user engagement.

You can use the above answers or add your personal touch to those answers to make them more natural and meaningful. Don't forget that this form plays the most important role in the entire process of getting production access. If you have any more questions, please feel free to contact us.

Best regards,
Testers Community Team
